NAVAL HISTORY IN FEBRUARY

1862

Capt. David G. Farragut, commander of his flagship, the screw sloop of war Hartford, departs Hampton Roads for Ship Island, Miss., where Farragut takes command of the Western Gulf Blockading Squadron in preparation for the assault on New Orleans.

1935

USS Macon (ZRS-5) crashes into the sea off Point Sur, Calif., after encountering a storm that tears off her upper fin, effectively ending the Navy's trouble-plagued rigid-airship program.

1944

Destroyer USS Walker (DD 517) sinks Japanese submarine RO 39, 10 miles east of Wotje, Marshall Islands.

1995

Fast Attack Submarine USS Toledo (SSN 769) is commissioned.

NAVAL FUN FACTS

MCPO and SCPO - The pay grades of E-8 and E-9, Senior Chief and Master Chief, were created effective June 1, 1958, under a 1958 Amendment to the Career Compensation Act of 1949. Eligibility for promotion to E-8, the Senior Chief level, was restricted to Chiefs (Permanent Appointment) with a minimum of four years in grade and a total of ten years of service. For elevation from E-7 to Master Chief, E-9, a minimum of six years of service as a Chief Petty Officer with a total of 13 years of service was required. The E-5 through E-9 levels included all ratings except Teleman and Printer which at the time were being phased out of the naval rating structure. People holding those ratings were absorbed or converted to Yeoman or Radioman from Teleman and primarily to Lithographer from Printer. Service-wide examinations for outstanding Chiefs were held on August 5, 1958, with the first promotions becoming effective on November 16, 1958. A few months later, a second group of Chiefs from the February 1959 examinations were elevated to E-8 and E-9 effective on May 16, 1959. The names of the first two groups of selectees are listed in Bureau of Naval Personnel Notices 1430 of October 17, 1958, and May 20, 1959. It is noted that after the May 1959 elevations, promotions to E-9 were through Senior Chief only.
